

# Slow Manoeuvring Parking and Reversing

(FM-032)

## COURSE OBJECTIVES

Slow speed incidents make up a high percentage of the total vehicle incidents for all large fleets. This session focuses on the risks involved and the key techniques that a driver can apply to avoid slow speed incidents on and off site. 1 to 1 course takes place at any suitable location selected by the booking manager. Delivery is handled by our nationwide team of Fleet Registered ADI's, who use a blend of theory and practical training exercises to support colleague skills and knowledge to avoid slow speed collisions both forward and reverse.

## WHO SHOULD ATTEND?

All fleet vehicle operators

## DELIVERY LOCATIONS

Any suitable location selected by the booking manager that can accommodate the practical activities.

## COURSE CONTENT

### Theory knowledge excellence:

- ✓ Dynamic risk assessment
