

Electric Vehicle On-Road Course

(FM-007)

**FLEETMASTER
GROUP**

COURSE OBJECTIVES

Attendees are introduced to the technology behind EV development and gain an understanding of the vehicle's technology, controls and driving characteristics. Drivers will benefit from coaching and practical training around the various drive modes and regenerative braking to maximise the performance when driving the new Electric Vehicle. They benefit from the opportunity to experience driving an EV in different road environments across Urban, Rural and Motorways with comprehensive training around setting up the vehicle and leaving the vehicle, incorporating various charging methods

WHO SHOULD ATTEND?

Vehicle operators who will operate an Electric Vehicle

DELIVERY LOCATIONS
