

FM-004 – Winter Resilience

FLEETMASTER
GROUP

Course description

The course takes place at any suitable location selected by the booking manager.

This seasonally targeted course is designed to reinforce and enhance the knowledge of delegates for driving in severe weather. It is designed to reduce risk factors and possible risks when driving in winter conditions. Drivers will also be advised about the correct vehicle and personal checks to make in the event of more severe inclement weather.

The planned purpose of the course is to equip each driver with a better understanding of the driving task during winter months, cope with each risk encountered on today's road system and be better equipped to deal with the pressures and distractions encountered with work-related driving. This course will also enable the delegate to be more informed and make improved driving decisions therefore enhancing each driver's safety margins.

Digital assessment reports are accessible to employers post training and provide the detail of the training and a risk rating to help employers manage their ongoing risk removing the unknown.

Who is the course for?

Any driver that may encounter seasonal adverse conditions when operating a vehicle on company business.

Key facts

Half Day – 1 Delegate
