

FM-003 – Speed Awareness

**FLEETMASTER
GROUP**

Course description

The course takes place at any suitable location selected by the booking manager.

The training is practical on-road so takes place off site. Training supports drivers to have an increased awareness of correct speed choice and the consequences when it goes wrong. Drivers will gain an improved awareness and practical skills to become safer drivers through behavioural and skills-based training.

Delivery is handled by our nationwide team of expert trainers, who use a blend of theory and on-road practical training to identify areas of concern in driver behaviour, advise on ways to improve and demonstrate a range of advanced driving and defensive driving techniques.

Digital assessment reports are accessible to employers post training and provide the detail of the training and a risk rating to help employers manage their ongoing risk removing the unknown.

Who is the course for?

Vehicle operators who have been issued endorsement points, have been involved in speed related incidents or who are deemed to be of significant risk of poor speed choice.
